General Information for prospective CyGrid partners

Joining the EGEE Grid Infrastructure as a provider of a resources

Sites wishing to join the EGEE grid infrastructure are very welcome from any discipline; it could be Scientific, Educational or Industrial, and there are inevitably other application areas that haven't yet been conceived. This process is coordinated within each Federation by a Regional Operations Centre (ROC).

For sites wishing to join from Cyprus, the contact point is the High Performance Computing systems Laboratory (HPCL) at the University of Cyprus. A candidate Resource Centre wishing to participate must provide the following information:

- Site contact information
- Statement of acceptance of policy documents
- Cluster details

For providing the necessary information, please complete the Resource Centre application form. Point your web browser at http://cygrid.org.cy/HPCL_EGEE_RC-application-v.1.0.pdf to download and print the form. Please return the completed application form to the EGEE SEE-RoC representative for Cyprus:

Kyriacos Neocleous
High Performance Computing systems Lab
Computer Science Dept.
0EE-01, 217, Athalassa Campus
University of Cyprus

Visit <http://cygrid.org.cy>, or send an e-mail to grid@cs.ucy.ac.cy for obtaining more information regarding the requirements and procedure for joining EGEE as a resource provider.
